

ECAD invites you to join our study visit to **JEGERSBERG, near Kristiansand, Norway, on June 2, 2016**

Jegersberg center was established in 2013 and is located near the city centre of Kristiansand which is located in the south part of Norway. Today we have 10 places for addicts in rehabilitation and are now expanding with further 18 places.

The inspiration to our rehabilitation center is based on our own experience of working with abusers in Kristiansand, but also from San Patrignano community in Italy and Basta in Sweden. We have taken the effective elements from these locations and built a center based on our own culture and opportunities.
