INTERNATIONAL CONFERENCE

It Works! Drug prevention from
an international perspective

September 15-16, 2011

PROGRAMME HIGHLIGHTS

Charli Eriksson, Professor, Public Health Science, Örebro University, Sweden
Director of National Center for Child Health Promotion; Örebro University (NCFE)
“Comparative analysis of drug use patterns among Russian and Swedish youth”

Walter Kegö, Senior Fellow, Institute for Security and Development Policy, Sweden
“How does drug industry affect you and the society?”

Nataliya Antonova, researcher, psychologist, St.Petersburg state university, faculty of psychology
“Psychoactive substance abuse among young people (15-16 years old) in North-Western Federal Region, ESPAD comparative study”

Roman Dubrovsky, expert, Leningrad Regional Administration, Analytical department, Research and Methodology, “Local authorities in charge of prevention measures. How does it work?”

Igor Yakovlev, Deputy head of Culture and Youth Politics City Committee, Veliky Novgorod City Administration, “Night life, disco and drug prevention, working with youth”

Involving representatives from Russian Federal law enforcement agency FSKN , NGOs, practitioners and researchers.

Discussions will focus on **prevention** and **drug demand reduction**. We will talk about international dimension as added value to the latest research on local and international prevention, similarities rather than differences in prevention and experiences originated in Russian drug policy shifts and its effects.

Conference languages: Russian with interpretation to/from English

Advance conference bookings can be made to ecad@ecad.net Please visit www.ecad.net for more information
